

their time to help with it. Many enquiries were received and these should help to swell the Club membership.

TRAINING:

At the last Training Night at the "Uni" Pool there was an enthusiastic turn out. Most of those who attended had heard of it through the Boat Show.

The next Training Night will be held on August 25th at 7.00 p.m. at the University Pool.

CAR BADGES:

The Deposit of £1 will be collected by Rob. Bricker at the next meeting, from all those interested in purchasing a Club Car Badge.

LIBRARY BOOKS:

John Discoll reports that there are several books months overdue. A fine will be levied on those people who have kept these books out for so long. Surely it is only fair to other members to return these books after one month.

OUTINGS:

CAPE SCHANK = The outing at Cape Schank ended up as a boat trip from Flinders. The boat anchored off the Cape in about 30ft.

of water. The bottom was rugged and interesting. There was a rock wall about 30ft. high with crevices full of coloured sponges and weed.

Alas! The only crays in the area were caught by Vic. Oke who has an uncanny knack for finding them.

As a result of this outing with the Underwater and Explorers Club an invitation has been sent to our Club to attend the lectures given by the "Marine Study Group of Victoria". The next lecture is on Monday, 28th August at 8.00 p.m. at the National Museum Theatre.

I sincerely urge members to try to attend these lectures as they will be very interesting and beneficial to all. The title of this month's lecture is "A Report on the Bay Survey" - it tells of four years of research and collecting of specimens in the Bay.

This is a glorious opportunity to learn something of marine life.

LAKE BULLEN MERRI:

This outing will be held on the 19th and 20th August and should provide very interesting deep diving. A rendezvous will be decided upon at the next meeting.

MORNINGTON:

Good old Mornington never fails to

provide a successful days diving. Plenty of oysters and a few fish still lurk among the rocks.

We will meet at the Pier at 10.00 a.m. on Sunday, September 3rd.
